<b>CALOCUS Administration</b> <input type="checkbox"/> Entry into Service <input type="checkbox"/> Annual <input type="checkbox"/> Exit from Service <input type="checkbox"/> Other _____	<b>Service/Program</b> (check one of the following) MH Case Management (13.12) _____ MR Case Management (13.12) _____ Children's Habilitation Services (Sec.24) _____
1. Calculation of CALOCUS Composite Score	
<b>Dimension</b>	<b>Dimension Ratings (circle each score)</b>
I. Risk of Harm	<div style="display: flex; justify-content: space-around;"> <span>1</span><span>2</span><span>3</span><span style="background-color: #cccccc;">4</span><span style="background-color: #cccccc;">5</span> </div>
II. Functional Status	<div style="display: flex; justify-content: space-around;"> <span>1</span><span>2</span><span>3</span><span style="background-color: #cccccc;">4</span><span style="background-color: #cccccc;">5</span> </div>
III. Coexisting Conditions (Comorbidity)	<div style="display: flex; justify-content: space-around;"> <span>1</span><span>2</span><span>3</span><span style="background-color: #cccccc;">4</span><span style="background-color: #cccccc;">5</span> </div>
IV. Recovery Environment	
A. Environmental Stressors	<div style="display: flex; justify-content: space-around;"> <span>1</span><span>2</span><span>3</span><span>4</span><span>5</span> </div>
B. Environmental Supports	<div style="display: flex; justify-content: space-around;"> <span>1</span><span>2</span><span>3</span><span>4</span><span>5</span> </div>
V. Resiliency	<div style="display: flex; justify-content: space-around;"> <span>1</span><span>2</span><span>3</span><span>4</span><span>5</span> </div>
VI. Treatment Acceptance & Engagement	
Child/Adolescent <b><u>(use higher of</u></b>	<div style="display: flex; justify-content: space-around;"> <span>1</span><span>2</span><span>3</span><span>4</span><span>5</span> </div>
Parent/Caregiver <b><u>two subscales)</u></b>	<div style="display: flex; justify-content: space-around;"> <span>1</span><span>2</span><span>3</span><span>4</span><span>5</span> </div>
<b>Composite CALOCUS Score</b> (Add numbers in right column):	
2. CALOCUS - Derived Level of Care (I-VI) Recommendation: <u>(Consult grid &amp; decision tree. Use independent criteria in the Gray Dimension Rating area above is chosen)</u>	
(Items 3 & 4 to be completed by Case Managers ONLY)	
3. Level of Care (I-VI) Planned by Child & Family Team including all services and supports: (Ref. to CALOCUS Service Level Description Chart)	
4. Reasons for deviation from CALOCUS - derived level of care recommendation <u>[Must be completed if the Planned LOC using Service Level Description Chart (#3) is different from the CALOCUS-derived LOC (#2)] Check all that apply below:</u> <input type="checkbox"/> Services/supports unavailable at derived level of care <input type="checkbox"/> Financial resources unavailable to access service and supports at derived level of care <input type="checkbox"/> Child and Family Team decision to use an alternate level of care <input type="checkbox"/> Other (specify): _____ _____	

\*Gray area in Dimension Ratings require independent criteria consideration when using the Determination Grid (Rev 10/1/06)

Pertaining to the following items: CALOCUS Scoring Sheet; Level of Care Determination Grid; &  
Service Level Description Chart

Step 1:	<b>Compute CALOCUS Composite Score</b> based on the sum of each individual Dimension (Risk of Harm; Functional Status; Coexisting Conditions (Co morbidity); Recovery Environment (A. Stressors & B. Supports); Resiliency; Treatment, Acceptance & Engagement (child/adolescent & parent/caregiver)-use higher of two scores.
Step 2:	<b>Assigning Level of Care:</b> If Risk of Harm, Functional Status and Coexisting Conditions (Co morbidity) do <b>not</b> have an individual score of 4 or 5, then refer directly to the <u>Composite Rating</u> line on the Determination Grid. Choose the corresponding Level the composite score appears under. Place the appropriate Level on line Item 3 of the CALOCUS Scoring Sheet. If the above Dimensions <b>do</b> have a 4 or 5, refer directly to Step 3: Independent Criteria.
Step 3:	<p><b>Independent Criteria</b> requires automatic admission to a higher level of care based on the rules described below, but in the event that the CALOCUS composite score places the child at a higher level of care than indicated by the independent criteria, the rater should use the higher level of care based on the composite score.</p> <p><u>Risk of Harm</u> - If rating is a “4”, assign to Level V; - If rating is “5”, assign to Level VI</p> <p><u>Functional Status and/or Coexisting Conditions (Co morbidity)</u> - If rating is a “4” and Dimensions IVA &amp; IVB (Environmental Stressors and Supports) equals 2, assign to Level as described in Step 2 above. - If rating is “4” and the sum of Dimensions IVA &amp; IVB is greater than 2, assign to Level V; - If rating is a “5”, on either Dimension assign to Level VI</p>
Step 4:	<p><b>Completing CALOCUS Scoring Sheet:</b> <i>Item #2 - Derived Level of Care (I-VI) Recommendation:</i> Pertains to Level of Care determined by the use of the CALOCUS (See Level of Care Determination Grid &amp; use Independent Criteria when indicated.</p> <p><u>(Items 3 &amp; 4 to be completed by Case Managers ONLY)</u> <i>Item #3 - Level of Care (I-VI) Planned by the Child &amp; Family Team using CALOCUS Service Level Description Chart:</i> Pertains to the planned level of care determined by child &amp; family team of all services and supports required.</p> <p><i>Item #4 - Reasons for deviation from CALOCUS - Derived Level of Care Recommendation:</i> Needs to be completed if there is a difference between the CALOCUS Derived Level of Care (Items #2) and the Level of Care that is proposed by the Child &amp; Family Team (Item #3)</p>
